WHAT U. S. PAPERS SAY ABOUT THE LATE ELECTION.

Chicago Tribune: Blaine will carry Canada by a big majority next time.

Canadian American: To the surprise of the Reformers, Prince Edward, the barley county of Ontario, was captured by the Reformers.

Cincinnati Enquirer: The Liberals, who are known to favor annexation with the United States, did not carry the day.

Buffalo Times: The Liberals of Canada who favor annexation to the U. S. are going to win one of these days, probably at the next election.

Buffalo News: Under all the circumstances the Liberals must be conceded to have gained a moral triumph and unrestricted reciprocity, yes, and annexation, too, have been brought nearer to hand than they were before.

Kansas City Journal: The (Canadian) Liberals of to-day are being carried faster than they imagine towards a campaign of annexation.

Detroit News: From a half way measure of commercial union to a full one of annexation the Liberals of Canada have gone since annexation.

ANOTHER H. B. RAILWAY.

A Charter Wanted From The Prince Albert Branch To The Bay.

Ottawa, March 27.—Applications will be made to parliament to incorporate the Manitoba and Assiniboia Grand Junction Railway Co., to build a railway from a point on the Qu'Appelle, Long Lake and Saskatchewan railroad and from some point easterly to cross the Assiniboia River at Shellmouth, Manitoba, thence to Lake Dauphin, thence to a point on the Hudson Bay with power to build a branch from Shellmouth to Brandon.

BIG FAILURE IN LONDON.

John Bisell & Son Go Down With Heavy Liabilities.

London, Ont., March 28.—One of the biggest failures of late years in Western Ontario is that of the wholesale dry goods house of John Bisell & Co. of this place, which is announced to-day. The liabilities are estimated at a quarter of a million, assets are estimated at \$125,000. The chief creditors are old country firms and woolen factories in Canada.

NEWS FROM ALL POINTS.

Ottawa, March 29.—The Governor-General-in-Council has received a memorial signed by every Catholic prelate in Canada asking for the disallowance of the act passed by the Manitoba Legislature abolishing Catholic separate schools in that province. The memorial characterizes the legislation of the Manitoba Legislature as pernicious and detrimental to Catholic rights.

The feeling amongst Conservatives against sending a deputation to Washington to discuss reciprocity is growing stronger.

The Minister of Justice has applied to the United States authorities for the extradition of James Brothers, who is wanted at Hinton, Ont., on a charge of forgery. Brothers is now at Oaklands, Cal.

MONTREAL, March 28.—Easter Sunday was marked by unusual observance. The music in the churches was of a special nature. The Roman Catholics excelled themselves in that respect. The attendance at all services was beyond that of former years.

OUR SCHOOL.

The numerous candidates nomin-
ated for the vacancy at present ex-
isting in the school board shows the
keen interest taken just now in
school matters. We have already
intimated that serious dissatisfaction
exists respecting the general man-
agement of our school system, that
such is the case is becoming more
apparent every day, and the public
are justly alarmed at the state into
which some of the departments are
falling. This will in a measure ac-
count for the active interest being
taken in the forthcoming election.
Another question which is attract-
ing serious attention, and one which
is playing an important part in the
contest is the action of the board in
the matter of enlarging the present
accommodation. In the case of the
present building practical men were
asked to provide suitable plans to-
gether with the estimated cost of
completion, unfortunately for the
taxpayer the prettiest but by no
means the most economical one was
chosen by the then existing board.
The great failure then made seems
to present no warning to the school
managers of to-day, a young and in-
experienced man is asked to draft
the plans, every practical architect
of the town being ignored, with the
natural result that if the one sub-
mitted is accepted by the board,
which seems likely to be the case,
and power is given them to raise
money for its completion, we will
be the proud possessors of an un-
gainly structure without ventilation
and without proper light, all repre-
senting an asset valued at something
like \$10,000. So expensive a lux-
ury is worthy of the most careful
consideration, and the keen interest
now being taken in the trustee elec-
tion shows that before power is given
the board to go on with the work
a careful examination of the pro-
posed plan will be made.

We are pleased to notice that our
Board of Trade, practically dormant
since 1889, is again to the front
prepared to carry out the worthy
objects for which it was first formed
and to do their work on principles
which should always have governed

the corporation. It is unfortunate
that all our business men do not
take that active interest in the work
which the situation of the town and
country so reasonably demand, but
the active measures being adopted
by those who demonstrate their in-
terest in trade development, will
undoubtedly attract the active sup-
port of all others. The council on
Tuesday last made a move in the
right direction, and good must soon
follow as a result of their action.
Mr. Betts made some valuable sug-
gestions respecting immigration
which were freely accepted by the
council, and a special committee
was appointed to act upon them.
Their report will be presented to
another meeting of the council on
Thursday next, and on Friday a full
council report will be submitted for
the approval of the general board
which meets at three o'clock sharp.
Business men should rally to the
support of the new officers. They
together with their council have set-
tled the old and vexed questions
which hitherto have been an extreme
source of annoyance. The busi-
ness now starts without encum-
brance, united effort will make it a
power for good to the community.

The *Empire* says, an interesting
phase of the reciprocity negotiations
between the United States and Bra-
zil was furnished the other day in a
Paris dispatch, in which, upon the
authority of *Le Siecle*, it was stated
that M. Ribot had cabled the Bra-
zilian government asking that French
exporters receive the "most favored
nation" treatment in all their deal-
ings with Brazilian merchants. The
New York *Tribune*, which is as safe
an authority upon the United States
view of the matter as Deputy Dis-
trict's influential journal *Le Siecle*
is upon the French side, admits the
probable correctness of the despatch,
referred to, and says in regard to it:
"At any rate, the granting to France
of the privilege of that clause would
not interfere with the advantages
offered to the United States trade
by the Brazilian convention." L.
Mr. Blaine but hold this view in all
his reciprocity dealings with the
Latin American countries and with
Canada, and he need have little
doubt that the "ease of life," to
which he has set himself, will soon
be accomplished. Britain does not
even ask as much from Canada as
France does from Brazil.

An illustration of the growth of
liberality between Christian denomi-
nations occurred during the Wes-
leyan centenary celebration in the city
of Edinburgh. Presbyterianism and
Methodism are considered to be
closer to each other by the ad-
herents of both on this side of the
Atlantic than in Scotland, the land
of Presbyterianism. On that ac-
count it is rather a striking evidence
of the universal growth of good feel-
ing when Dr. Cameron Lees, of St.
Giles' cathedral is found placing the
cathedral at the service of the Wes-
leyans on that occasion. On the
opening night the audience in the
great edifice crowded every foot of
its space. The Lord Provost and
magistrates were present in their
robes, and the university was repre-
sented by the principal, Sir William
Muir.

The New York *World* is discuss-
ing remedies for "lynch law." See-
ing that the leaders of the New Or-
leans mob are going about without
any fear of inconvenience to their
liberty on the part of the authorities
it would not be out of the way to
suggest that the United States pass
a law making notorious murders or
"lynching" illegal.

The latest beer statistics publish-
ed do not show an enormous export
trade of that national product. Dur-
ing the year ending on 30th Sep-
tember the exports from England
were 339,289 barrels, of the value
of £1,288,101; from Scotland,
167,979 barrels, of the value of
£597,968, and from Ireland 1,791
barrels, of the value of £12,211.
They appear to have gone to nearly
all parts of the world.

A score of states of the Union
have adopted the Canadian ballot
law, but under the name of the
Australian ballot law, more or less
amended. We are glad to see them
following our example anyway.

Coughs,
Colds, Croup.

Allen's Lung Balm was introduced
to the public after its merits for the positive
cure of such diseases had been fully tested.
It excites expectoration and causes the Lungs
to throw off the phlegm or mucus; changes
the secretions and purifies the blood; heals
the irritated parts; gives strength to the diges-
tive organs; brings the liver to its proper
action, and imparts strength to the whole system.
Such is the immediate and satisfactory
effect that it is warranted to break up the most distressing cough
in a few hours' time, if not of too long standing. It contains no opium in any
form and is warranted to be perfectly harmless to the most delicate child. There is no
real necessity for so many deaths by consumption when Allen's Lung Balm will pre-
vent it if only taken in time. For Consumption, and all diseases that lead to it, such as
Coughs, neglected Colds, Bronchitis, Asthma and all diseases of the Lungs, ALLEN'S
LUNG BALM is the Great Modern Remedy. For Croup and Whooping Cough
it is almost a specific. It is an old standard
remedy, and sold universally at 50 cents
and \$1.00 per bottle. The 25-cent bottles
are put out to answer the constant call
for a Good and Low Priced Cough Cure.
If you have not tried the Balm, call for a
25-cent bottle to test it.

GENERAL NEWS

Ottawa, March 26.—A shocking accident occurred this afternoon at the Loomers' phosphate mine in Ottawa county. After an explosion of two blasts three men went down into one of the holes to move the debris when they were overtaken by a slide of rock. Two of them, Camille Tombeau and Alfred Bradley, were killed outright, and Joseph Proudhomme was so badly injured that he cannot live.

Gibraltar, March 26.—The Anglia sailed for New York to-day with 153 emigrants and saloon passengers rescued from the Utopia. Thirty bodies were recovered to-day. Of the bodies recovered 130 have been buried on land and 179 at sea.

London, March 26.—Less than one hundred Italians not including any of the prominent members of the Italian community in London met in Holborn town hall to-day, and passed resolutions deprecating the New Orleans massacre. Alberto Pius presided. The speeches were moderate, and the audience unemotional. The resolutions set forth that while condemning the crime of which the murdered Italians had been accused, they protested in the name of humanity against the horrible atrocities of the New Orleans mob, and hoped that justice would be meted out to the murderers of their countrymen.

Toronto, March 26.—The action of Comtee & McLennan against the Canadian Pacific Railway, claiming additional money for work done in the construction of the Lake Superior section of that road was advanced another stage this afternoon when the full court of appeal disagreed two to two on the appeal of the railway against the judgment of Chief Justice Armour awarding to the plaintiffs a quarter of a million dollars in full of all claims.

Ottawa, March 26.—Lord Salisbury's letter to the London Board of trade to the effect that the British Government will renew negotiations with Brazil with the view of obtaining for English goods the most favored nation clause has attracted attention here. Hon. Mr. Forster, on being asked whether Canada as an integral part of the empire would receive from Brazil the same terms as England in case of the proposed negotiations having a successful issue, said that would have to be a matter of agreement between England and Brazil. England might ask that her dependencies be included in the treaty or she might not. The Dominion Government had received no intimation from the Imperial government as to its intentions in the matter, and had not entered into any negotiations of the subject.

Toronto, March 26.—At the annual meeting of the Ontario & Saint Ste. Marie railway held here yesterday, L. J. Sargeant was elected president and Edmund Wragge vice-president. It is rumored the road will be extended northward toward the Saint, this season, and that the Sudbury district will be included. This will give the Grand Trunk an opening into the nickel district.

Kingston, March 26.—Sergeant Hayne, of A Battery, who has been suffering from the effects of a piece of shell which lodged in his throat while in active service in the Northwest, is gradually sinking. He was a bold and brave soldier and won the Victoria Cross before coming to Canada.

Paris, March 26.—President Carnot has wired Queen Victoria placing himself and the officials of the French Government at Her Majesty's disposal during her residence at Grasse.

London, March 26.—The appointment of the Marquis of Hartington, chairman of the labor commission, is generally commended. Labor leaders are angry at not knowing which will be the actual course of procedure and scope of the inquiry. It is universally anticipated that this commission will be the most important and far reaching of any during the last forty years, and the result of its deliberations will affect the labor question in all countries. Sir Michael Hicks Beach, president of the board of trade, and Sir John Gorst, parliamentary secretary for the Indian office, will serve on the labor commission. Mr. John

Morley has declined to serve on the commission. Messrs. Fowler and Mundill are still considering whether or not to serve, otherwise the list of members of the commission is complete.

Paris, March 26.—Queen Victoria arrived at Grasse yesterday. She was received with great enthusiasm, the people turning out with flags and banners. The prefect of the department and the mayor of the town welcomed the Queen at the station. Thousands cheered her. The Queen bowed repeatedly and cordially.

Ottawa, March 26.—It is understood the Minister of Justice is preparing a bill providing for the increasing of salaries of judges throughout the Dominion, of Dominion Cabinet Ministers and of their deputies. It will be remembered that in the session of 1889 Sir John Thompson introduced a bill dealing with the salaries of judges of provincial courts. The effect of this was to add \$1,000 to the salaries now enjoyed by judges of the superior courts of Ontario. The proposal was popular in parliament but there was a strong feeling that Ontario county judges should be remembered in the bill. It did not therefore become law. It is probable in the new bill that the county judiciary, certainly regarded as an oversight in the former bill will be attended to. In regard to other bills it is not probable parliament will be found to be seriously opposed to them.

Washington, March 26.—A dispatch from Minister Lincoln, received at the state department, states that the English government has decided to take part in the world's fair. A dispatch was also received stating that Spain would send an exhibit to the fair.

London, March 26.—Great preparations are being made for the naval exhibition to be opened on the second of May. Among the few invitations issued for that occasion is one to the naval attaché of the American legation. The latest addition to the trophies is the chair, or throne, of the late Sultan of Vito, which was carried away from his palace by the British marines when they sacked and destroyed the Sultan's palace.

London, March 26.—It is learned that Lord Salisbury prior to his departure for the Riviera made a strong protest to the Portuguese minister, against the delay of the Lisbon Government in explaining the seizure of a vessel belonging to the British South African Company, by the Portuguese authorities in Africa.

Winnipeg, March 27.—C. P. R. land department statistics show that the immigration to this country during February was seventy-five per cent larger than that of last year. The company's land sales for the same month were sixty per cent larger than for the corresponding period of last year.

There have been fewer deaths in Winnipeg so far this month, than for any corresponding period for many years back.

The chicory factory at Witwood, Man., the property of Count de Roffignac, was burned to the ground last Saturday night. Sixteen thousand pounds of chicory stored in the mill at the time was also lost. The mill was fully covered by insurance and the proprietor intends building immediately. The loss of the chicory will necessitate a short delay in filling orders, but the count, says that in a month or six weeks at the latest the mill will be in operation again, when orders will be filled with all possible despatch.

London, March 26.—Home Secretary Matthews proposes to adopt for the police of Great Britain the French system of identifying criminals by measurement, though such measurements are to be made only after conviction.

A decision of the court of appeals holds Justin McCarthy, Herbert Gladstone, and some others, liable for £7,000 due by the Irish exhibition of 1888 to the bankers, Coutts & Co.
